# Regular massage can change your life!

Massage makes you feel good and has proven medical and therapeutic benefits.

## Do you suffer from:

- ✓ Arthritis
- ✓ Anxiety or mood swings
- ✓ Back pain or sciatica
- ✓ Bodily aches, pains or injury
- ✓ Chronic pain
- ✓ Constipation
- ✓ Depression
- ✓ Headaches or migraines
- ✓ High blood pressure
- ✓ Insomnia or poor sleep
- ✓ Low energy
- ✓ Poor circulation
- ✓ Slow metabolism
- ✓ Stress
- ✓ Stress related weight gain

## Health & Medical Experts Agree!

“..we utilise massage much like the glue that holds all the pieces of a puzzle together... Massage should be a key element to any physical or rehabilitative program...”

**Duncan Maxwell**

Owner/Manager  
The Energy Clinic personal training studio, Adelaide, SA

“A regular massage is one of the nicest gifts you can give yourself. I always look forward to my weekly massage as it helps keep my body performing at its best.”

**Dr David Hendrey**

Chiropractor  
Hendrey Chiropractic on Lake Kawana, Sunshine Coast, Qld

A deep, relaxing massage can be at your fingertips - everyday, anytime...

**CardioTech®**

www.cardiotech.com.au

# Relax. Unwind. Rejuvenate.

## How awesome!

Lower **stress**, more **sleep**, fewer **aches** and **pains**, lower **blood pressure**, better **circulation**, more **energy**, **weight loss** and feel mentally **alert**.

## Experience the CardioTech Difference.

### Ahhh - feel the sweet relief...

A deep, penetrating massage that works on your most troubled areas. Kneading... stretching... vibrating... releasing all your tension.

### Receive the perfect massage, everytime...

Each massage is personally mapped to your body - the high-tech auto scan system ensures you always hit the right spot.

### Experience zero gravity...

This new Zero Gravity feature mimics the posture of astronauts during liftoff. This deep recline position distributes your weight across the chair relieving stress on the body and allowing for a deeper more intense massage experience with your full weight against the backrest. Plus, there's nothing better for reviving tired legs and swollen feet with your feet elevated higher than your heart and air bags helping to increase circulation. Fall asleep? Highly likely.

### Relax all of your senses...

Let your mind follow your body into total relaxation. Be spirited away playing surround sound music from your own mobile or tablet device using Bluetooth pairing technology.

### It's all about 'me' time...

Take your massage to the next level with a toasty heat treatment. Set the in-built heaters from 30-60 degrees and your tired muscles and joints will love you!

Enjoy the feeling of deep relaxation and calm...

# Sooo Plush...

Every bit a stylish and sleek addition to your home...

*"Like most busy people I don't have the time to go out for massages as often as I'd like, so my solution was to go out and get myself a massage chair. I now use it 3 or 4 times a week at the end of the day to keep my spine loose and relaxed."*

**Steve Lockhart**

creator of SLM Bodywork & professional masseur (of 20 years)*

*Discover the sensation of extreme comfort...*

# Fully loaded and feature packed.

CardioTech's superior massage experience.

## Been a hard day? Feeling moody? Energy levels low?

Simply press a button - choose Recovery, Comfort, Relax or Fatigue. With these 10 pre-set programs you can escape to paradise.

## Sitting or standing all day?

Press the Upper Back or Lower Back semi-automatic programs. Take a deep breath, lay back and just feel the relief.

## Trouble spots in your back?

Customise your back massage to work them over. Choose from 9 partial massages or select a 'point' massage that will work your back where you need it most.

## Want the massage of your life?

Choose your own combination of knead, knock, wavelet, tap, shiatsu or vibrate. Experiment with the airbag intensity, shoulder position, leg extension, temperature and/or recline to design your own, targeted sensational massage.

**CLEVER  
EASY-TO-USE  
REMOTE!**

## How does it work?

Different strokes help you de-stress and enjoy first-class massage therapy:

### ✓ Kneading

Improves your blood circulation and provides deep tissue relief

### ✓ Tapping

Helps relieve your bodily aches and stress

### ✓ Knocking

Mobilizes your spinal joints for a healthy and relaxed back

### ✓ Vibration

Stimulates your digestion, circulation, metabolism and lymphatic flow

### ✓ Shiatsu

Combines rolling and kneading to really work your trouble spots

### ✓ Wavelet

The rolling motion helps you unwind and detoxify

## Reflexology?

Oh yeah! Get this...

While air compression combined with vibration thoroughly massages your legs, your feet are simultaneously grabbed, pressed and kneaded into bliss.

Even more impressive... your soles receive a continuous massage, thanks to the cleverly designed foot rest.

**FEELING IS BELIEVING**

You would need two or more massage therapists to get a massage like this cutting-edge robotic system.
